Assignment - 4

Assignment Date	02.11.2022
Student Name	Sreevarshini S
Student Roll no	2116191001095
Maximum Marks	2 Marks

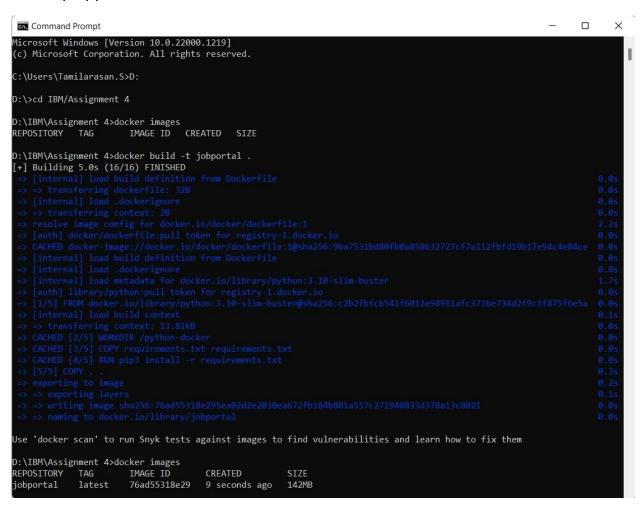

1. Pull an Image from docker hub and run it in docker playground.

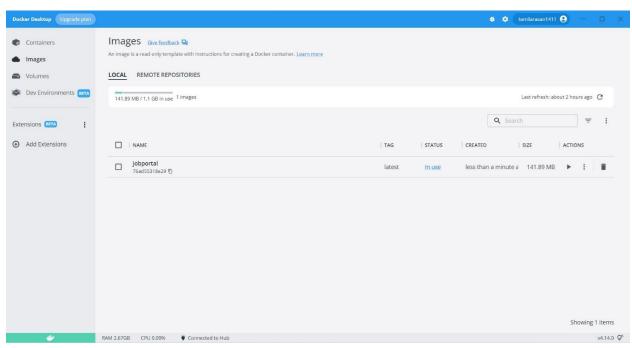

try something more ambitious, you can run an Ubuntu container with: docker run -it ubuntu bash are images, automate workflows, and more with a free Docker ID: ttps://nub.docker.com/

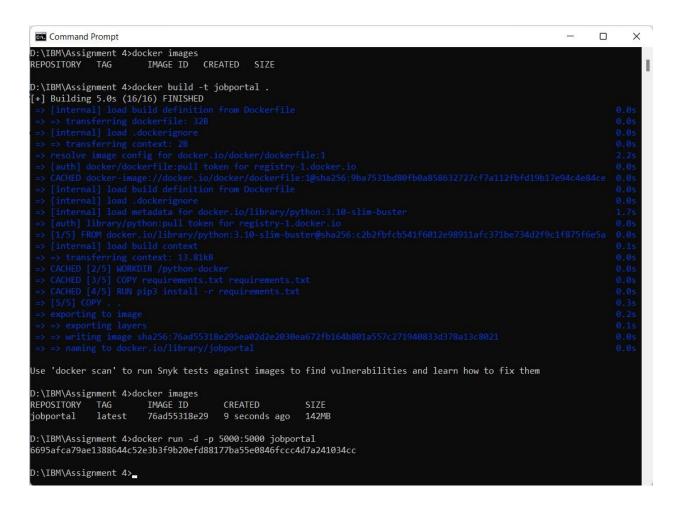

r more examples and ideas, visit: ttps://docs.docker.com/get-started/

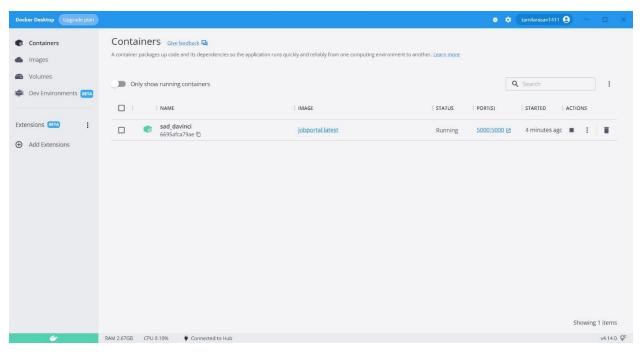

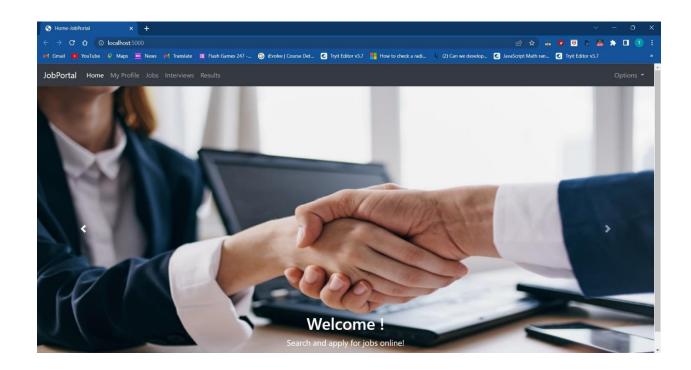

2. Create a docker file for the jobportal application and deploy it in Docker desktop application.

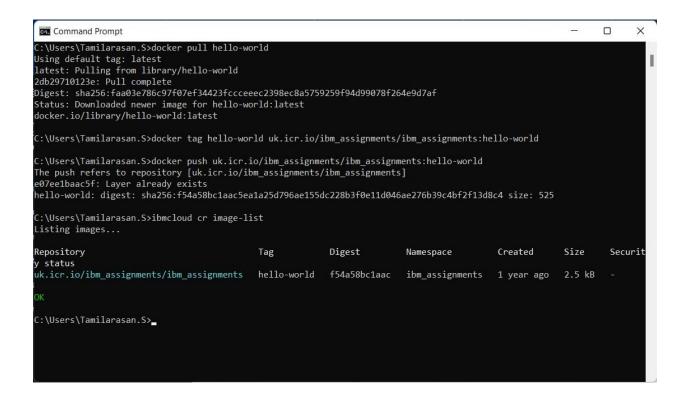

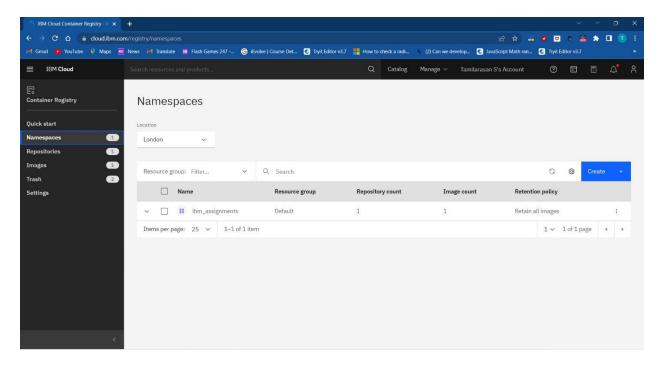

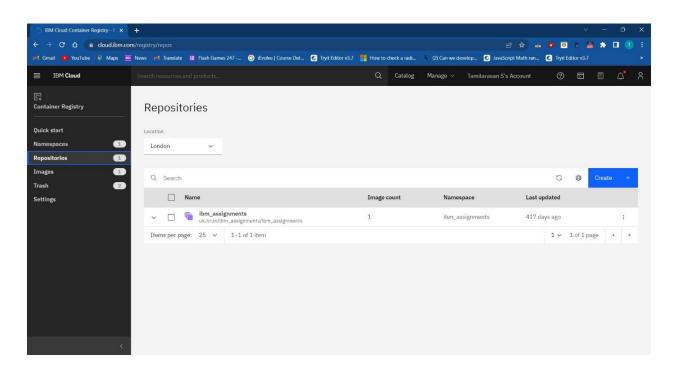

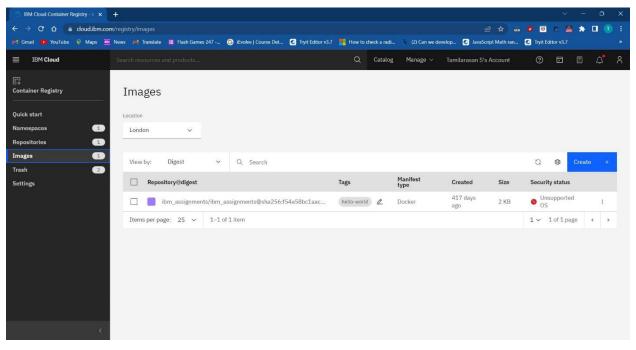

3. Create a IBM container registry and deploy helloworld app or jobportalapp.

```
×
 Command Prompt
                                                                                                                                        Microsoft Windows [Version 10.0.22000.1219]
